

Par-Max™ Series

MARINE FRESHWATER DELIVERY PUMPS

a xylem brand

Par-Max™ Series MARINE FRESHWATER DELIVERY PUMPS

Jabsco's updated and improved lineup of freshwater supply pumps are designed to provide years of satisfactory service in applications both large and small.

HD (Heavy Duty) models include a wider diameter motor with a powder coated shell, cast aluminum endbells and lower housing to improve pressure capability and life. Available in configurations up to 6 GPM (23 LPM) and 60 PSI (4.1 BAR), these pumps deliver exceptional performance.

Standard models provide good performance in an economical footprint. These configurations are available in 1-3 GPM, perfect for vessels with 1-3 outlets. A plastic housing protects the motors on these units from corrosion.

Features and Benefits:

- Co-molded diaphragm technology for long life and durability
- HD models feature heavy duty, motors and cast aluminum lower housings which allow for long-life, even at high pressures
- Efficient and quiet operation
- Integrated, sealed pressure switch for on-demand operation
- Self-priming allows for installation versatility
- Can run dry without damage
- Quick connect ports for ease of installation, servicing, and maintenance
- Vibration dampening mounting feet
- Equipped with integrated bypass module to reduce cycling and provide smoother flow

**Par-Max 1 also includes 2 x 3/8" to 1/2" adapter

Other Available Fittings & Accessories:

See website for part numbers and details

Accumulator Tanks

Used to reduce pump cycling and allow for even smoother water flow. Variety of sizes and configurations available.

Inlet Water Pressure Regulator

Protects system from overpressurized city water.

Port Fittings

Options include threaded, 90°, and more.

Par-Max™ Series MARINE FRESHWATER DELIVERY PUMPS

Typical Installation:

Specifications:

Motor design	Brushed, permanent magnet TENV
Pumphead upper housing material	Glass fiber reinforced polypropylene
Diaphragm	Co-molded TPV
Check valves	EPDM
Max inlet pressure	30 PSI (2.1 Bar)
Fluid temperature range	32°F - 140°F (0°C - 60°C)
Dry self-priming capability	7ft min (2.13m/min)
Certifications	CE, ISO8846, RCM
Ingress protection	IPX6
Voltage, flow, pressure, port fittings, etc.	Refer to PN table
Other info	Refer to data-sheet. These can be found on website.
